These also may be referred to as non-franchised distributors, unauthorized distributors or brokers. "Electronic Part" includes the following commodities (Federal Supply Classes): Microelectronic device (FSC 5962), discrete semiconductor device (FSC 5961), resistor (FSC 5905), capacitor (FSC 5910), relay (FSC 5945), coil/transformer/inductor (FSC 5950) and circuit assembly.

To further mitigate the possibility of the inadvertent use of Counterfeit Parts, SELLER shall only purchase authentic parts/components directly from the OEMs/OCMs or through the OEM's/OCM's authorized distribution chain. SELLER must make available to ADI, at ADI's request, OEM/OCM documentation that authenticates traceability of the components to that applicable OEM/OCM. Purchase of parts/components from Independent Distributors is not authorized unless first approved in writing by ADI. SELLER must present complete and compelling support for its request and include in its request all actions to ensure the parts/components thus procured are legitimate parts. ADI, in most cases, will additionally need to get its customer's approval of SELLER's request. Processing of such requests shall not constitute an excusable delay on part of the SELLER. ADI's approval of SELLER request(s) does not relieve SELLER's responsibility to comply with all Contract requirements, including the representations and warranties in this provision.

ii. SELLER shall maintain a documented system (policy, procedure, or other documented approach) that provides for prior notification to ADI and his/her written approval before parts/components are procured from sources other than OEMs/OCMs or through the OEM's/OCM's authorized distribution chain. SELLER shall provide copies of such documentation for its system for ADI's inspection upon ADI's request. SELLER's system shall be consistent with applicable industry standards, AS5553 and AS6081 as minimum, for the detection and avoidance of counterfeit electronic parts and suspect counterfeit electronic parts, including policies and procedures for training personnel, designing and maintaining systems to mitigate risks associated with parts obsolescence, making sourcing decisions, prioritizing mission critical and sensitive components, ensuring traceability of parts, developing lists of trusted and non-trusted suppliers, flowing down requirements to subcontractors, inspecting and testing parts, reporting and quarantining suspect counterfeit electronic parts and counterfeit electronic parts, and taking corrective action.

iii. If the SELLER is providing electronic components/devices only, the following certification applies: Certification of Origin of Product: Acceptance of this Contract constitutes confirmation by the SELLER that it is the Original Equipment Manufacturer (OEM)/Original Component

Manufacturer (OCM), or a franchised or authorized distributor of the OEM/OCM for the product herein procured. SELLER further warrants that OEM/OCM acquisition documentation that authenticates traceability of the components to that applicable OEM/OCM is available upon request. If the SELLER is not the OEM/OCM or a franchised or authorized distributor, the SELLER confirms by acceptance of this Contract that it has been authorized in writing by ADI to act on ADI's behalf to procure from the OCM or a franchised or authorized distributor of the OEM/OCM. The SELLER further warrants that OEM/OCM acquisition traceability documentation is accurate and available to ADI upon ADI's request.

iv. SELLER shall flow the requirements of this provision to its subcontractors and suppliers at any tier for the performance of this Contract.

v. Notifications: Should SELLER become aware of a confirmed or suspect counterfeit part that, by any means, has been delivered to ADI, or acquired for this Contract whether or not delivered to ADI, notification will be made within twenty-four (24) hours of discovery to ADI's Buyer. SELLER will verify receipt of this notification by ADI. Additionally, for confirmed Counterfeit Electronic Parts, notification will also be made not later than 60 days after discovery to the Government-Industry Data Exchange Program (GIDEP). This requirement will survive this contract.

vi. SELLER shall be liable for cost of counterfeit parts and suspect counterfeit parts and the cost of rework or corrective action that may be required to remedy the use or inclusion of such parts. See also 17c.

vii. SELLER shall quarantine suspect counterfeit electronic parts and counterfeit electronic parts and make them available for investigation by appropriate government authorities.

When requested by ADI the Seller shall promptly replace determined counterfeit Goods with Goods deemed as conforming to ADI.

ii. The Seller shall be held liable for all costs relating to the impoundment, removal and/or replacement of Goods. Upon receipt of confirmed counterfeit Goods, Goods will be reported and maybe turned over to the appropriate Government Authorities having jurisdiction such as the Office of Inspector General, Defense Criminal Investigative Service, Federal Bureau of Investigation or etc. for further investigation.

iii. The Seller warrants that counterfeit or misrepresented Goods have no value and ADI reserves the right to withhold payment for any such Goods. Any warranties provisions contained in the Seller's Terms and Conditions will be declared null and void if it is later determined that counterfeit or misrepresented Goods were received by ADI.

iv. The Seller of counterfeit or misrepresented Goods agrees to reimburse ADI for the full purchase price of Goods, as well as any related shipping, testing and/or destruction expenses.
